This Years Schedule

Like we promised in the January Radio Flyer, the bulk of this years events have been scheduled. There are still a few that need to be determined but have been narrowed down to a rough guesstimate. Also, since I have your attention, this is the last reminder that to prevent having to pay a late fee, Club Dues are due before the next General Membership Meeting Tuesday, February 2nd.

On May 9th, what we use to call our “Maiden Flight Day” has now been redesigned as “Club Kickoff Day”. The change is more about getting together (maybe some type of cookout) to kickoff the season then just about maiden’ing planes...but we would love to have you bring out and show off your winter projects.

Then on June 6th, we will be hosting, at the field, our very first “Tailgate Swap Meet”. This will be a new twist on swap meets since we could not have our standard version of it this year. A couple weeks after that will be the first of three “Float Fly’s” June 19th. The other two will be nicely spaced out on August 7th and October 16th.

Speaking of the “Ditch Clean-up’s” (sorry, I did not know how to segue into that) ...there will be two this year. April 10th and November 6th we will need your help to keep the dues down. But its not all work without play cause on July 18th we will be having our annual “Fun Fly”. This is an event that requires some skill and a ton of luck. And in the fun category we also have to mention the four day “Night Fly” starting August 26th going though August 29th.

Of course the biggest event will be this years “Airshow” scheduled for September 12th. Since we were unable to have last years, we are looking forward to an exciting one this year. One of the reasons it is late in the year is because we have high hopes that things could be calming down by then...fingers crossed!

To finish off the year, we will be having our end of the year “Holiday Party” December 8th. A great way to get together and have a review of the years events including an awards ceremony. With things being what they are, we are looking forward to a full and safe flying season.

The Radio Flyer is published monthly by the Iowa City Aerohawks, a radio control flying club, and distributed free to members, by e-mail and USPS mail. Non-members may receive the newsletter by e-mail as a PDF file, by request.

Spectators are welcome at the Aerohawks’ flying field and clubhouse on Hebl Avenue, west on Melrose, west of HWY 218, on manicured, reclaimed land near the entrance to the Landfill. New members are welcome at any time, at any level of skill.

The Club has an active, free instructional program for beginners. Membership is \$60 annually, and the Club also requires that members volunteer help with work projects from time to time. Members must also join the Academy of Model Aeronautics, (the Iowa City Aerohawks are Chapter 824).
