Can't Beat The Swap Meet

What a great turn out for the annual Aerohawks swap meet! Thank you everyone who helped make it happen. There was a great variety of all types of planes and cars that found eager new owners. I know I got some fun new stuff! Don't forget to check out the calendar below for upcoming dates of events.

Tip of the Month

We all know locking down the legs of folding tables can be painful and tiring (especially for our nimble flying fingers). The best solution to this problem is to call up Jason Schick and Scott Garrett. All they need for this job is a rolling cart and hammer. The way this works is by Scott pushing the cart under tables while Jason is laying on the cart hammering lock the bottom of tables. It is a unique, but a very efficient method of securing tables.

The Radio Flyer is published monthly by the Iowa City Aerohawks, a radio control flying club, and distributed free to members, by e-mail and USPS mail. Non-members may receive the newsletter by e-mail as a PDF file, by request. Spectators are welcome at the Aerohawks' flying field and clubhouse on Hebl Avenue, west on Melrose, west of HWY 218, on manicured, reclaimed land near the entrance to the Landfill. New members are welcome at any time, at any level of skill. The Club has an active, free instructional program for beginners. Membership is \$60 annually, and the Club also requires that members volunteer help with work projects from time to time. Members must also join the Academy of Model Aeronautics, (the Iowa City Aerohawks are Chapter 824).
