Outstanding Airshow!

The Aerohawks delivered an amazing airshow once again. Things started off with a bang (literally)... Steve the skydiver had an unfortunate jump, tangling himself in the propeller of the plane putting it in a downward spin. Steve and the plane were recovered, and things went back on track.

A highlight of the show was the Man-in-the-Box event. Dion successfully controlled the airplane from the inside the box with only instructions from Rich. It was a bit of a rocky flight but all is well that lands well.

Huge thanks to everyone who helped out and participated in the airshow. Without you this event would be grounded. A special thanks to Rich VeDepo, who spends countless hours organizing the show.

The Radio Flyer is published monthly by the Iowa City Aerohawks, a radio control flying club, and distributed free to members, by e-mail and USPS mail. Non-members may receive the newsletter by e-mail as a PDF file, by request. Spectators are welcome at the Aerohawks' flying field and clubhouse on Hebl Avenue, west on Melrose, west of HWY 218, on manicured, reclaimed land near the entrance to the Landfill. New members are welcome at any time, at any level of skill. The Club has an active, free instructional program for beginners. Membership is \$60 annually, and the Club also requires that members volunteer help with work projects from time to time. Members must also join the Academy of Model Aeronautics, (the Iowa City Aerohawks are Chapter 824).

Some pictures from the show, thanks Scott Garrett!
